The Magnelli Museum

In the more recent part of the castle. This museum plays host to the largest public collection of artworks by Italian painter Alberto Magnelli, one of the masters of abstract painting.

Comprising 47 paintings assembled during the artist's life-time, this collection was acknowledged by Magnelli himself to be the essential backbone of his lifework, from "Neve" (oil on canvas, 1910) to his very last works dated 1969.
